THE WEEK'S HOTTEST STYLE NEWS

Ole!

Anti-ageing expert, Dr Naina, who is a very good advertisement for anti-ageing products, has become the ambassador for Olay's Regenerist skincare range. Not surprisingly she swears by Olay's Regenerist Serum, which she applies before her moisturiser morning and evening.

Here are her tips on beating the dreaded effects of time.

- It's all about sustaining a positive and healthy lifestyle. These include following a healthy diet; a tailored fitness regime and careful skin-care regimen.
- I swear by decaffeinated green tea – I can't get enough of it. The antioxidants

in green tea fight inflammation, the main cause of ageing. There are also foods which I eat such as berries and walnuts, which also contain these power-packed, anti-ageing antioxidants.

● As for my skin? I think it's all about hydration.
